1. Introduction to zPoint Products' Shipping Services

zPoint Products is a division of Techsol, a North American (NAFTA) corporation specializing in **low-cost embedded technology design and board fabrication**. We offer a variety of products and programs that will **save you money installing Building Automation Systems** using our **proven ZigBee-powered platform to mitigate risks**. In addition, our solutions provide both **energy cost savings** and **increased comfort and convenience** for your customers.

2. Where Can zPoint Products Ship From?

Depending on where production takes place, we can perform box-builds at the same location or ship materials to another location for final assembly. That means that your product could ship from Canada, USA, Mexico, China, Korea, Malasia, or UK depending on your needs.

3. Can zPoint Products Ship Directly to MY Customer?

We can ship your product directly to YOUR customer, with YOUR NAME on the box! We can also take care of labeling with different labels depending on where the units are assembled and shipped from.

Depending on where production takes place, we can perform box-builds at the same location or ship materials to another location for final assembly. That means that your product could ship from Canada, USA, China, Korea, or UK depending on your needs. For example, we can:

- Build in Canada and ship to Canada and the US duty-free.
- Or build your product in the US and label it "Made in USA".
- Or build your product in the UK and label it "Made in EU".
- Or build it in China for shipping into Pacific Rim countries, including Australia.

Its all up to you. We're flexible!
